Federal Emergency Management Agency

Message from the FEMA Administrator

November 21, 2023

I am pleased to present the following report, “Disaster Contracts Quarterly Report,” for the fourth quarter (Q4) of Fiscal Year (FY) 2022, which was prepared by the Federal Emergency Management Agency (FEMA).

This report was compiled pursuant to the language set forth in Title VI of the FY 2007 Department of Homeland Security (DHS) Appropriations Act (P.L. 109-295). The report provides information and data on contracts, including those using disaster funds that were entered into by means other than competitive procedures.

Pursuant to congressional requirements, this report is being provided to the following Members of Congress:

The Honorable David Joyce
Chair, House Appropriations Subcommittee on Homeland Security

The Honorable Henry Cuellar
Ranking Member, House Appropriations Subcommittee on Homeland Security

The Honorable Chris Murphy
Chair, Senate Appropriations Subcommittee on Homeland Security

The Honorable Katie Britt
Ranking Member, Senate Appropriations Subcommittee on Homeland Security

The Honorable Mark E. Green
Chairman, House Committee on Homeland Security

The Honorable Bennie G. Thompson
Ranking Member, House Committee on Homeland Security

The Honorable Gary C. Peters
Chairman, Senate Committee on Homeland Security and Governmental Affairs

The Honorable Rand Paul
Ranking Member, Senate Committee on Homeland Security and Governmental Affairs

The Honorable Dan Bishop
Chairman, House Homeland Security Subcommittee on Oversight, Investigations, and Accountability

The Honorable Glenn Ivey

Ranking Member, House Homeland Security Subcommittee on Oversight, Investigations,
and Accountability

Inquiries relating to this report may be directed to FEMA's Office of External Affairs,
Congressional Affairs Division at (202) 646-4500.

Sincerely,

Administrator
Federal Emergency Management Agency

Executive Summary

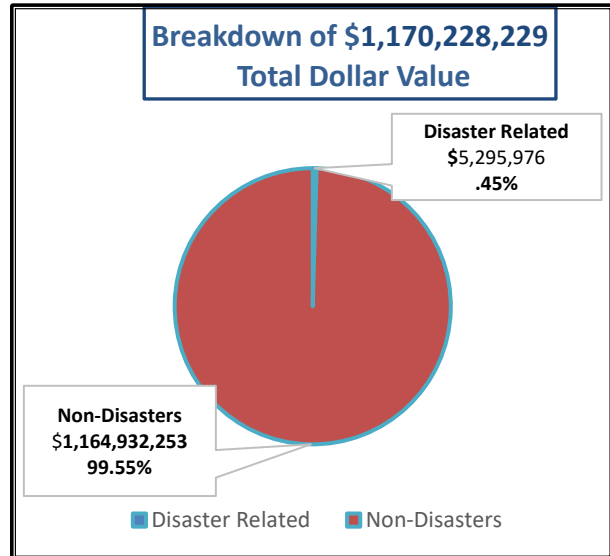

FEMA strives to compete its procurements whenever possible and practical, including using advance contracting for recurring disaster-related requirements. However, there are times when FEMA must use different contracting methods to provide a seamless response and a timely recovery. These instances that reduce risk and expedite delivery of services include missions to safeguard disaster survivors quickly; assistance to state, local, territorial, and tribal governments; micropurchases; and property protection from imminent danger.

Title VI of the FY 2007 DHS Appropriations Act (P.L. 109-295) requires the FEMA Administrator to provide a quarterly report on all contracts issued during any disaster, which shall include a detailed justification for any contract entered into by means other than competitive procedures. To fulfill this requirement, FEMA gathered data from its contract writing system of record, the Procurement Information System for Management (PRISM). The PRISM fund source data have a greater level of detail than the data provided by Federal Procurement Data System - Next Generation (FPDS-NG). FEMA relies on the PRISM data to calculate the disaster-related contract action statistics. To ensure the integrity of the data, information also was gathered from the FPDS-NG for FY 2022 Q4. FEMA uses FPDS-NG data in conjunction with and to validate PRISM-based data and calculations. The data tables in this report contain both PRISM and FPDS-NG data.

In FY 2022 Q4, FEMA issued 1,784 contract actions with a total dollar value of \$1,170,228,229. This excludes deobligations and no-cost modifications. Of the 1,784 contract actions, 53 (or approximately 2.97 percent) were disaster-related, totaling \$5,295,976. This dollar value represents approximately 0.45 percent of the procurement funds expended during Q4. Of the 53 disaster-related contract actions, 10 were issued on a noncompetitive basis, representing approximately 0.56 percent of all Q4 contract actions. The total contract-related cost of these 10 noncompetitive actions is \$1,622,150 or approximately 0.13 percent of the total contract dollars spent in Q4. Included in the 53 disaster-related contract actions are 3 noncompetitive disaster-related micropurchases that do not require competition in accordance with the Federal Acquisition Regulations (FAR). The 3 disaster-related micropurchases are below the \$10,000 micropurchase threshold and were procured using a governmentwide purchase card.

Total Contract Actions Issued and Total Dollar Value for FY 2022 Q4

The data in this report are not considered procurement-sensitive and are accurate as of September 30, 2022. The data export from PRISM and FPDS-NG was generated on September 30, 2022, for FY 2022 Q4 (July – September 2022), as well as for the remainder of Q3 that was not reported previously.

I. Legislative Language

This document responds to the language set forth in Title VI of the Fiscal Year (FY) 2007 Department of Homeland Security (DHS) Appropriations Act (P.L. 109-295).

P.L. 109-295 § 691 (d) states:

REPORT ON CONTRACTS NOT USING COMPETITIVE PROCEDURES

At the end of each fiscal quarter, beginning with the first fiscal quarter occurring at least 90 days after the date of enactment of this Act, the Administrator shall submit a report on each disaster assistance contract entered by the Agency by other than competitive procedures to the appropriate committees of Congress.

II. Background

To meet the requirements of P.L. 109-295, the Federal Emergency Management Agency (FEMA) follows a specific methodology for determining the total number of disaster-related contract actions. That methodology starts by identifying award actions using appropriated funds designated for disaster situations, excluding any deobligations of funds and no-cost modifications. Once actions are identified, award information is gathered from the Procurement Information System for Management (PRISM) and the Federal Procurement Data System - Next Generation (FPDS-NG) to populate Appendices 1 and 2 of this report.

Appendices 1 and 2 contain the following fields that generally correspond to the requirements identified in P.L. 109-295 Section 691 (codified at 6 U.S.C. 791) Advance Contracting:

- Number
- Contract/Order Number
- Modification Number
- Obligated Amount
- Contractor
- Issue Date
- Completion Date
- Ultimate Completion Date
- State: Event (In some cases, there is not one specific disaster or state because a single contract action may support multiple states or disasters.)
- Description of Requirement (The Title field in PRISM is used when a Description of Requirement in FPDS-NG is unavailable.)
- Reason Not Competed

A detailed justification of how an action may be taken in the future to ensure competition of a particular contract without impeding timely disaster response also is addressed in this report on page 5, last paragraph.

III. Data Report

In the fourth quarter (Q4) of FY 2022, FEMA issued 1,784 contract actions with a total dollar value of \$1,170,228,229. Of the 1,784 contract actions, 53 (or approximately 2.97 percent) were disaster-related, totaling \$5,295,976. This dollar value represents approximately 0.45 percent of the procurement funds expended during Q4. Of the 53 disaster-related contract actions, 10 were issued on a noncompetitive basis, representing approximately 0.56 percent of all Q4 contract actions. The total contract-related cost of these 10 noncompetitive actions is \$1,622,150 or approximately 0.13 percent of the total contract dollars spent in Q4. Included in the 53 disaster-related contract actions are 3 noncompetitive disaster-related micropurchases that do not require competition in accordance with the Federal Acquisition Regulations (FAR). The 3 disaster-related micropurchases are below the \$10,000 micropurchase threshold and were procured using a governmentwide purchase card (GPC).

FEMA-issued Noncompetitive Disaster Contract Actions by Category for FY 2022 Q4

In accordance with FAR §§ 6.302, 13.2-3, and 16.505, FPDS-NG grouped noncompetitive contract actions into 21 established categories as shown in Figure 3. During FY 2022 Q4, FEMA’s noncompetitive contract actions fell into the following distribution within these 21 categories totaling 13:

FEMA maximizes competition to the maximum extent practicable in disaster situations. FEMA will continue to maximize competition using local businesses, and, when appropriate, to document the business reasons for using a single source. FEMA continues to identify steps that it can take to improve competitive procurement during disaster response.
